

BERETTA APX A1 PISTOL

DESCRIPTION

The APX A1 takes the proven ergonomics and reliability of the APX family to the next level with integrated features derived from feedback from military, law enforcement, and tactical shooters. It aims for the highest levels in performance, safety, and quality to operate for any shooter in the field. Beretta passed every stringent test of the US Army MHS program with its APX pistol candidate and is used by professionals on the ground in more than 20 countries.
